Greetings,

Our next Wild Rice Standards Study Advisory Committee will take place next Tuesday, July 14, 2015 at the MPCA's Regional Office in Duluth from 1-3:30 p.m. Directions and information about parking can be found at the following link <http://www.pca.state.mn.us/hqzq3e1>. As always, you are welcome to call in if you are unable to attend in person. See below for the call in number and code.

An agenda for the meeting is attached. We will be completing the presentation of the MPCA's proposed

approach that we began at our May meeting and focusing our discussion on the SEM modeling and the binary logistic regression. I am attaching the presentation; please note we will be presenting slides 29-46 and 49. We will be discussing slides 47 and 48 at another time. Also attached is a short PowerPoint that compares the use of NOEC and EC₁₀ and a rulemaking timeline that will also be discussed.

We look forward to seeing you next week and continuing our discussion of the proposed approach.
